[Eventegg](#)

and passenger flight search engine

[Ucakbileti.com](#)

announce strategic partnership on technological infrastructure improvement, software architecture and database technologies.

Administrators of both of the companies stated that the prospect benefit that will rise from the partnership will contribute to both Eventegg's and Ucakbileti.com's strengthening their company profiles. This partnership step that is based on the cooperation in terms of technological and strategic collaboration aims to increase the two companies' research and improvement practices.

About Eventegg [Eventegg](#) is an online event database that lists academic and business events such as congress, conferences, symposiums, fairs and trade shows that take place all around the world. With the partnership of the most trusted hotel booking engines, Eventegg enables the attendees to choose from the listed available hotels on the event's date, near the event's venue.

About Ucakbileti.com [Ucakbileti.com](#) is a passenger flight search engine that enables the users to compare flights on 10.000 different destinations with their partnership of 1.200 different airlines. Ucakbileti.com also makes it possible for the users to pay in installments after they easily decide which flight to take with just 2 easy steps.
