

(PRLEAP.COM) June 3, 2014 - Ashford Global IT, an Orlando-based firm that [offers onsite and virtual IT training courses](#)

for individuals and corporations across North America and beyond, is excited to announce that its instructors have a 95% pass rate on the ITIL® Foundation Certification Exam. This serves as a ringing endorsement for the quality of Ashford Global IT instructors and provides decision-makers with the confidence necessary to entrust the company with a wide range of business training services.

As one of 20 ITIL courses that Ashford Global IT offers, " [Foundation](#) " provides a "detailed overview of ITIL core disciplines and uses a case study approach to understand how ITIL best practices contribute to overall business effectiveness and efficiency." The course is offered as an online or "self-paced" class and gives participating students unmatched access to Ashford Global IT teachers who understand the rigorous demands of the modern information economy.

The ITIL Foundation Certification course is a three-day introduction to the world of [IT Lifecycle Management](#)

. In addition to a wealth of case studies that illustrate key concepts and objectives, the course offers all the resources that students need to successfully take and pass the ITIL Foundation Certification exit exam.

Ashford Global IT faculty leverage their mastery of core ITIL concepts to prepare their charges for this challenging evaluation. Students who wish to take more advanced ITIL Certification courses must pass the Foundation Certification exam.

Ashford Global IT believes in a culture of inclusiveness and mutual opportunity. As such, it imposes no prerequisites for this particular class and limits each class size to 25 or fewer students. Students receive course material that includes a syllabus, practice exam, case studies and classroom presentation material. On the last day of the course, students must complete a 40-question, closed-book exam in one hour or less.

According to the most recently available statistics, the general public's pass rate for the exam is 65 percent. This is 30 percentage points less than that of Ashford Global IT's certified ITIL instructors.

About Ashford Global IT Ashford Global IT (AGIT) is a worldwide organization that specializes in

delivering today's most in-demand business skills, IT and security courses. We also [provide consulting services to businesses](#) in need. Our course listing includes ITIL® best practices training and certification, IT security courses, as well as many soft skills essential to businesses today.
