

Square 9 Partners with Scan-Optics LTD

Written by Australian Business

(PRLEAP.COM) June 5, 2014 - New Haven, CT – Square 9 Softworks, the award-winning developer of document management software, has announced their recent partnership with Scan-Optics LTD's United Kingdom division. The new venture comes as a shared agreement to streamline the distribution of Square 9's paperless office software solutions throughout the region. The partnership has developed to meet the evolving needs of UK-based organizations with document intensive processes, seeking automated solutions designed to increase operational efficiency and reduce costs.

Scan-Optics has committed to representing Square 9 throughout the UK market by providing expert services and Tier I support to their dedicated channel partners. Their British channel partners will now have access to the same high level of technical support and product training that Square 9 resellers experience in the United States. The timing of the new distribution arrangement correlates with the rising demand for automated systems solutions. More companies are looking for proven document organizer software to increase business efficiency.

Square 9's SmartSearch document management software and document search software has been highly praised by organizations across a wide spectrum of industries, including: aerospace, healthcare, accounting, insurance and more. Companies large and small have adopted Square 9's award-winning document management tools for their ability to streamline workflows by eliminating burdensome and costly paper processes. Square 9 is excited to have partnered with Scan-Optics in the United Kingdom, and they look forward to an anticipated expansion within the growing European market.
